**** IACUC Notice 2019-1 ****

Individual Animal Identification – Animal Research Protocol

1. [NACLAR Guidelines](#) (pg 70, para 2.8.4, i) state that it is imperative for research animals to be adequately and appropriately identified.
2. The NUS IACUC Animal Research form has been updated to capture the required information. From today, a question on animal identification has been included in the Animal Research form for new submissions. The same information will also be requested by IACUC office when amendments are submitted.
3. More information on IACUC-approved rodent identification methods can be found in [CM SOP#: 570.01 on 'Rodent Identification'](#). A copy of the SOP is also attached in this email for your reference.
4. Please disseminate this information to your team members and approach IACUC office ([Ms Adeline Ng/ Mr Marcus Toh](#)) if more information is required.

Thank you and we wish you all the best in your work with animals.
